

Sub total to the end of December 2016: 143 so ~\$357.50

A quick note: Twitch treats resub messages strangely. Unlike the twitchnotify account for subs, resubs are sent through an IRCv3 USERNOTICE.

Unfortunately this means I missed resubs for until a little before the stream on January 1st, so a few subs have likely not been recorded by me.

Also I only got chat text logging up & running between the FFXV YouTube premiere & the Twitch premiere, I have included screenshots of what I caught before that including a few subs & cheers.

I'll manually transcribe those subs & cheers before the first log entry.

Optic_Darksyde just subscribed with Twitch Prime!

DSP makes a comment here that he'll only get \$4 all December on Twitch... he's already gotten 3x\$2.50 + \$1.06 for ~\$8.56

The first profitability here is a 20 bit cheer which is in my text log, so no more to manually include
